

NO CHANGE ORDERS. WE GUARANTEE IT.

- ✓ Every SurgicAir® ceiling is designed and pre-fabricated for each specific room.
 - Minimizes labor costs during installation
 - Eliminates on-site finishing modifications
 - Future-proofs your room for later modifications
- ✓ With our Field Services Program, you receive:
 - Trade coordination meetings
 - Installation supervision
 - Filter certification (if required)

JUST SOME OF OUR HAPPY CUSTOMERS

DON'T SETTLE FOR MINIMUM STANDARDS. DEFINE THEM.

Is your O.R. airflow as advanced
as the rest of the room?

SINCE 1974

O.R. AIRFLOW SHOULD NEVER DUMB DOWN THE ROOM.

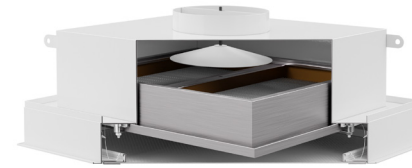

Some of the smartest tech is found in the OR, yet most ORs (even new ones) still use 30-year old airflow technology. The health of the patient and the comfort of the surgical team requires advanced, leading-edge airflow solutions that are consistent with your center-of-excellence standards.

✓ OUR 50-YEAR-OLD REPUTATION IS BUILT ON SOLVING MECHANICAL, SPATIAL AND STRUCTURAL PROBLEMS THAT OTHERS CAN'T.

- Expert project management keeps your project on schedule.
- Install ready solutions eliminate expensive change orders.
- Airflow designed for comfort, smoke reduction and elimination of airborne pathogens.
- Energy saving solutions reduce the burden on your current air system.
- Future-proof designs protect your total cost of ownership.

FROM ELEMENTARY TO REVOLUTIONARY

HIGH-PERFORMANCE DIFFUSERS & FILTERS

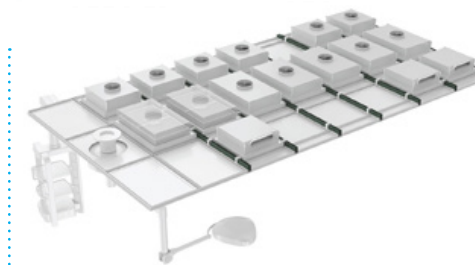

You get what you pay for.

SurgicAir® Lami-Vent and HEPA-Vent Diffusers prioritize patient protection and ROI through intelligent design and robust quality construction that always looks as great as it performs.

INTEGRATED CEILING SYSTEMS

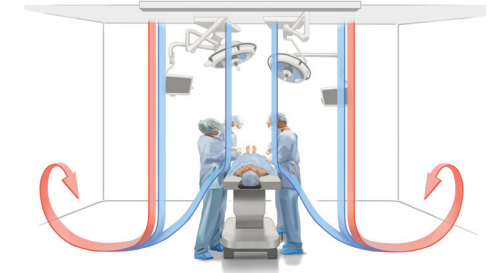

One size does not fit all.

The nimble designs of SurgicAir® Ceiling Systems transform into endless configurations while accommodating equipment mounts with low modification costs and minimal downtime.

ADVANCED HIGH-VOLUME AIRFLOW

Hot surgeons? Surgical smoke? Not enough airflow?

SurgicAir® High Volume Airflow Ceilings handle your biggest airflow challenges while minimizing project scope and saving total investment costs throughout the life of the ceiling.

OUR LEGENDARY ENGINEERING EXPERTISE IS ALWAYS BUILT IN.
